Background:

Leadership is a buzz word in every discipline. It assumes great significance in medical education in the backdrop of rapid specialization and increasing interdependence of various cadres of staff who run the system. Medical faculty must respond to this situation. They need to develop leadership skills to manage complex organizations. They also need to learn how to manage themselves to handle this challenging task. In response to the felt needs of medical faculty across the board, Center for Health Professions Education (CHPE) at Sri Balaji Vidyapeeth (DU) takes pride in organizing this national workshop on Leadership at SBV Campus, Pondicherry.
