Sir,

Sub: Regarding Ac Problem & food

As we got Suggestion from our batchmates regarding Mess food & Ac in lecture hall-6.

I would like to inform you that if there is any temperature regulation for Ac it will be good.

About the Mess food many of our batch mates are not satisfied with it. They want wheat rotis atleast thrice a week and they need milk daily two times.

In Girls hostel it would be good if we have a Snacks and coolbaras it is there in boys hostel. It would be good if there is a change in menu atleast month wise. So, please take our request and final Solutions.

Thanking You

Dear sir ,

We would like to bring your attention that the laundry services which was started recently is having serious problems. They are keeping students to wait for 1 to 1 1/2 hour to collect the clothes and every day they are delaying and telling tomorrow..
Yesterday my daughter while waiting to collect the clothes more than one hour was fainted and treated in the causality.
Please note that the students waiting for clothes more than a hour is totally unproductive for them.
My daughter during last year not facsd any difficulty for laundry services and they are managing their own. But if a new system is developed it has to further easy the process and not creating complications.

Please arrange to Improve the system like they can deliver the clothes to the rooms rather than keeping the students to wait.

we need your urgent intervention in this issues .

Thanking you...

Regards
G.Raja

Dear Sir

This is to bring to your notice that the Geyser of Boys Hostel -II room number G-34 is not working since last 3 months

Complaint has been logged with the hostel warden a number of times however the repair of the Geyser is still pending.

Myself had personally met the warden on Monday (16th September) with the request and was informed that a new geyser needs to be installed and that procurement of the same is pending.

On Wednesday (18th September) the room keys were requested and handed over to the authorities for repairs but again till today nothing has happened.

I am informed that both the electrician and the plumber are shifting the responsibilities to one another.

Since I see no resolution to the concern I am forced to raise this issue with you and VP (Students).

Would request to kindly look into the matter and instruct the suitable authorities to repair the bathroom geyser as soon as possible as the weather has become cooler.

Regards

Copy to the Maintenance Dept. for necessary action. Kindly to give explanation.

Sir/Madam,

We would like to bring to your notice that our room AC is not working for the past 6 months. On our persistent insistence the AC has been removed last week for repair work leaving a AC sized hole in our room(pg type 2 room 310). No effort has been taken to close the hole through which insects, mosquito and lizards enter the room. On bringing this to the warden's notice, we are getting scolded off. Please kindly look into the matter and help us. Thank-you.

Please find the photos attached of the hole.
