Content/Concept Note of the Workshop/Activity

- **Agenda of the Workshop/Activity**
 1. To comprehensively deal with the essential tenets of Viksit Bharat 2047
 2. To brainstorm on the future endeavours to be undertaken at SBV, keeping in view the realization of the endeavours in the year 2047 and from the viewpoint of a progressive higher educational institution committed to the all-round progress of Mother India

- **Brief Concept Note of the Activity**

The awareness campaign as well as the brainstorming sessions/discussion was essentially focused on the cardinal principles enshrined in Viksit Bharat 2047, namely

- i). Economic growth
- ii). Societal progress/development with inclusivity as a major attribute
- iii). Environmental sustainability for a brighter, safer and prosperous India
- iv). Holistic governance fortified by participatory management

All the above points were discussed in the light of the contributions that a health Sciences University could contribute

- **Participant's Details**

The sessions were held under the aegis of the Office of the Vice-Chancellor with support provided by the Office of the Registrar, Vice-Principal (Student Affairs) of constituent colleges, student representatives and Staff/Faculty advisors hailing from the Medical, Dental, Nursing, Pharmacy, Allied Health Sciences and Physiotherapy (constituent units of Sri Balaji Vidyapeeth). Representatives from the Off-campus (SSMCRI, SSSCON), Chennai were present online.

Name of the Subject Expert/s/Faculty invited for the discussion-

1. Prof. S. Umadevi, VP (Curriculum), MGMCRI, SBV
2. Prof .A.N. Uma, Principal, School of Allied Health Sciences, SBV
3. Prof. Usha Carounanidy, Director Accreditation, SBV (Moderator)

Workshop/Activity Thematic Focus (Kindly tick whichever applicable)

1. Accessible, Affordable, and Quality Education
2. Skilling: Upskilling and Reskilling
3. **Holistic, Quality & Affordable Health and Wellness for All** ✓
4. Development Vision for India
5. Agriculture and Rural Economy
6. Industry of the Future
7. **Services of the Future** ✓
8. Trade – Integrating with the World
9. Research, and Development
10. Innovation and Entrepreneurship
11. Transformative Governance: Reform, Perform and Transform

Brief note on the ideas discussed in the workshops/brainstorming discussion sessions-

1. Citizens have commitment such as educating their children, taking care of their sense of belonging from socio economic perspective, contributing to the society and most significantly (w) holistic health. The governments at the Centre/State should back the efforts of the citizens

of India by dwelling on mutual thrust aimed at the promulgation of **holistic wellness not only from the perspective of physical and mental health, but also in terms of upholding ethical values, societal well-being and transformation for the betterment of the community**

2. Equity of gender and caring for the third gender should receive top priority (**Wellness for all**)
3. More R & D centers need to be opened in the portals of academic institutions with associated teaching hospitals that would foster research and development to provide facilities at affordable costs (**Affordable Health and wellness for all**)
4. Hospitals should be established with a progressive outlook that would nurture an innovative and personalized care leading to a healthier future for the citizens of India (**Service of the future**)
5. Preventive healthcare is the need of India and its citizens. AYUSH and integrative medicine could be applied to diseases and disorders that do not respond to the conventional allopathic modalities. Need to generate more of evidence based research in such areas (**Service of the future**)

Feedback Given by the stakeholders:

- **Suggestions for Transformation in selected Sectors**

The National Health Mission (NHM) was launched in the year 2013 and comprises the National Rural Health Mission (NRHM) and the National Urban Health Mission (NUHM). The endeavours have to culminate in holistic wellness aimed at optimum growth and development in the frontier areas

- **Suggestive steps for reaching the identified goals.**

Empowerment of young professionals and retaining their services by minimizing brain drain

- **Suggestions for knowledge and new skills required for Sectors identified.**

Healthcare Sector Skill council should have more partnerships with self-financing private and NGOs

- **India's achievement in health, education and infrastructure etc. by 2047.**

The imparting of knowledge and skills must be fortified by value additions in the health sector and these needs are to be backed by necessary infrastructure, vocational education and health awareness among the underprivileged in order to realize the dream of DEVELOPED INDIA

- **Vision for Sustainable and inclusive development.**

Every Indian citizen, irrespective of socio economic status or degree of education

must be given an opportunity to flourish in the given economy, resources and workforce.

- **Any Other suggestions for the Vision Document**

Unless the youth of India join hands without ignoring the vital inputs from their mentors, Viksit Bharat 2047 would be eluding us.

If together we strive, tomorrow we will thrive
